Notes:
 * Non-OECD Countries
 1. For liquid wastes, this analysis uses an average density of 10 pounds per gallon. Based on analysis of annual reports where both weight and volume data were published, in which specific densities ranged from 8.35 to 12 pounds per gallon. Avanti Corporation, Overview of EPA Hazardous Waste Annual Export Reports, 2011.

TOTAL	26,678	566,460	23,004	417,752	49,682	984,212

Notes:
Seven reports did not indicate the number of shipments; this analysis assumes one shipment per report if the number of shipments is not indicated. One report that did not indicate reporting units for total waste shipped and three reports did not provide export destination information were excluded from this summary. Totals may not sum due to rounding.
